Reasons for Allowance

1. An after-final amendment was received from the applicant on November 9, 2004.
2. Claims 1-39 are allowed.
3. The following is an examiner's statement of reasons for allowance. The self-propelled personal watercraft as claimed is not shown or suggested in the prior art because of the use of a watercraft that is comprised of a body with a hull, a deck that substantially covers said hull, a bow portion and a stern portion, and a deck modification module that is removably attachable to said deck, where said deck modification module is configured to be positioned substantially wholly over said deck, and is selectively removable in order to change a performance characteristic of said deck when said deck is submerged in water.
4. The prior art as disclosed by Lewis (US 2,999,253) shows the use of a self-propelled personal watercraft that is comprised of a body with a hull, a deck that is further comprised of two covered ends and the top surfaces of two sidewalls, a cockpit, a bow and a stern portion, and a deck modification module that is removably attachable to said deck, where said deck modification module is configured to be removable in order to convert said watercraft from a kayak form into a canoe form. Said deck modification module is further comprised of a first surface that is configured to at least partially rest against said deck of said watercraft, a second surface with tapered sides, an upturned portion that is configured to interact with a flow of water over said deck, a rigid outer portion that encloses a buoyant material in the form of air, and a channel that

is configured to accept the insertion of a fastener. However, none of the prior art cited shows or suggests the use of a self-propelled personal watercraft that is comprised of a body with a hull, a deck that substantially covers said hull, a bow portion and a stern portion, and a deck modification module that is removably attachable to said deck, where said deck modification module is configured to be positioned substantially wholly over said deck, and is selectively removable in order to change a performance characteristic of said deck when said deck is submerged in water.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication from the examiner should be directed to Exr. Lars Olson whose telephone number is (703) 308-9807.
